TYPES OF PUBLIC WORKS CONSTRUCTION

(ORIGINAL APPLICATIONS AND THOSE WISHING TO ADD OR CHANGES TYPES OR CATEGORIES PLEASE COMPLETE BELOW)

Applicant shall mark the appropriate box or boxes with an X to indicate the type or types of construction in which there is experience and necessity for licensure.
For those applicants licensing as Type 4, please circle the appropriate categories in which there is experience and necessity for licensure.

Please note:

- If all three boxes, Types 1, 2 and 3, are checked, there is no need to check Type 4.
- If you only do certain phases of Types 1, 2 or 3, please check Type 4 with the individual categories circled.
- Types 1, 2 and 3 are for construction of the respective areas IN THEIR ENTIRETY. If you do not build the entire project from the ground up, then qualification lies in Type 4.
- For **each type and category** you must include three years' applicable work history and three contractor references.
- Work history will need to be a minimum of 5-6 jobs per year for each of the last three years for **each type and category**.
- Contractor references will need to be either on our form, notarized, or on the company's letterhead.
- If you are renewing your license and there are no changes to be made to your license from last year, this section is not applicable.
- If adding or changing types and/or categories, a letter addressed to the Bureau requesting the additions and changes is required. Please submit the letter along with the work history and references accordingly.

TYPE 1 HEAVY CONSTRUCTION ☐

Defined as constructing substantially in its entirety fixed works and structures (not including "building construction"), without limitation, for any or all of the following divisions of subjects: irrigation, drainage, sanitation, sewage, water power, water supply, reservoirs, flood control, reclamation, inland waterways, railroad, grade separations, track elevation, elevated highways, hydroelectric development, aqueducts, transmission lines, duct lines, pipelines, locks, dams, dykes, levees, revetments, channels, channel cutoffs, intakes, drainage, excavation and disposal of earth and rocks, foundations, piers, abutments, retaining walls, viaducts, shafts, tunnels, airports, air bases and airways, and other facilities incidental to any of the same.

TYPE 2 HIGHWAY CONSTRUCTION ☐

Defined as all work included in highway construction contracts, including, without limitation, highways, roads, streets, bridges, tunnels, sewer and street grading, street paving, curb setting, surfacing and other facilities incidental to any of the same.

TYPE 3 BUILDING CONSTRUCTION ☐

Defined as all work in connection with any structure now built, being built, or hereafter built, for the support, shelter and enclosure of persons, chattels, personal and moveable property of any kind, requiring in its construction the use of more than two unrelated building trades or crafts.

TYPE 4 SPECIALTY CONSTRUCTION ☐

Please mark the categories for which you would like to be licensed. All categories are listed on page 8.
Please note trade licenses in the space provided if you have chosen those categories for licensure.
